	The County is working to quickly leverage the incoming offers from local hotels/motels and on-going solicitations for assistance in the COVID-19 response.		
PERSONS EXPERIENCING HOMELESSNESS	<p>The Office of Emergency Management has designated LAHSA as the lead agency for work relating to people experiencing homelessness. OEM did this to ensure that LAHSA's expertise is captured in the day-to-day work and allows LAHSA to play the central coordinating role across City and County agencies.</p> <p>Medical Sheltering: The County, with LAHSA's seeks to provide 2,000 shelter beds where persons exhibiting COVID-19 symptoms can isolate safely. Medical sheltering sites will serve multiple populations, including persons experiencing homelessness. These sites include RVs provided by the state and hotels provided by the County. Physical Distancing in shelters continues to be a priority. LAHSA has requested resources that include food, personnel, test kits, and a warehouse to store acquired items. This order is currently being addressed by both the State and the County.</p> <p>Project Roomkey: The State has allocated \$50 million in State funding for the leasing of hotels/motels for three months for persons experiencing homelessness. This will allow them to isolate and participate in physical distancing, which will help flatten the curve and protect health care resources. These hotels will provide housing for vulnerable persons experiencing homelessness including those over 65 years of age and those with compromised immunity or chronic disease. The State is leading the negotiation of leases with hotels/motels on behalf of the County. This partnership between the County and State allows agreements to be reached quickly. LAHSA is currently standing up staffing and operations for Project Roomkey housing.</p>
